## Motivation

We want to get you started by providing you a template. But please be as creative as you wish.

## Tips for a Good Poster

1. Have a good title
2. The poster should summarize the most important points and help ***you*** to present.
3. Do ***not copy and paste*** the contents of your extended abstract.
4. Use enough whitespace
5. “A picture is worth a thousand words”
6. Have a clear focus
7. Don’t have more than one line per bullet point

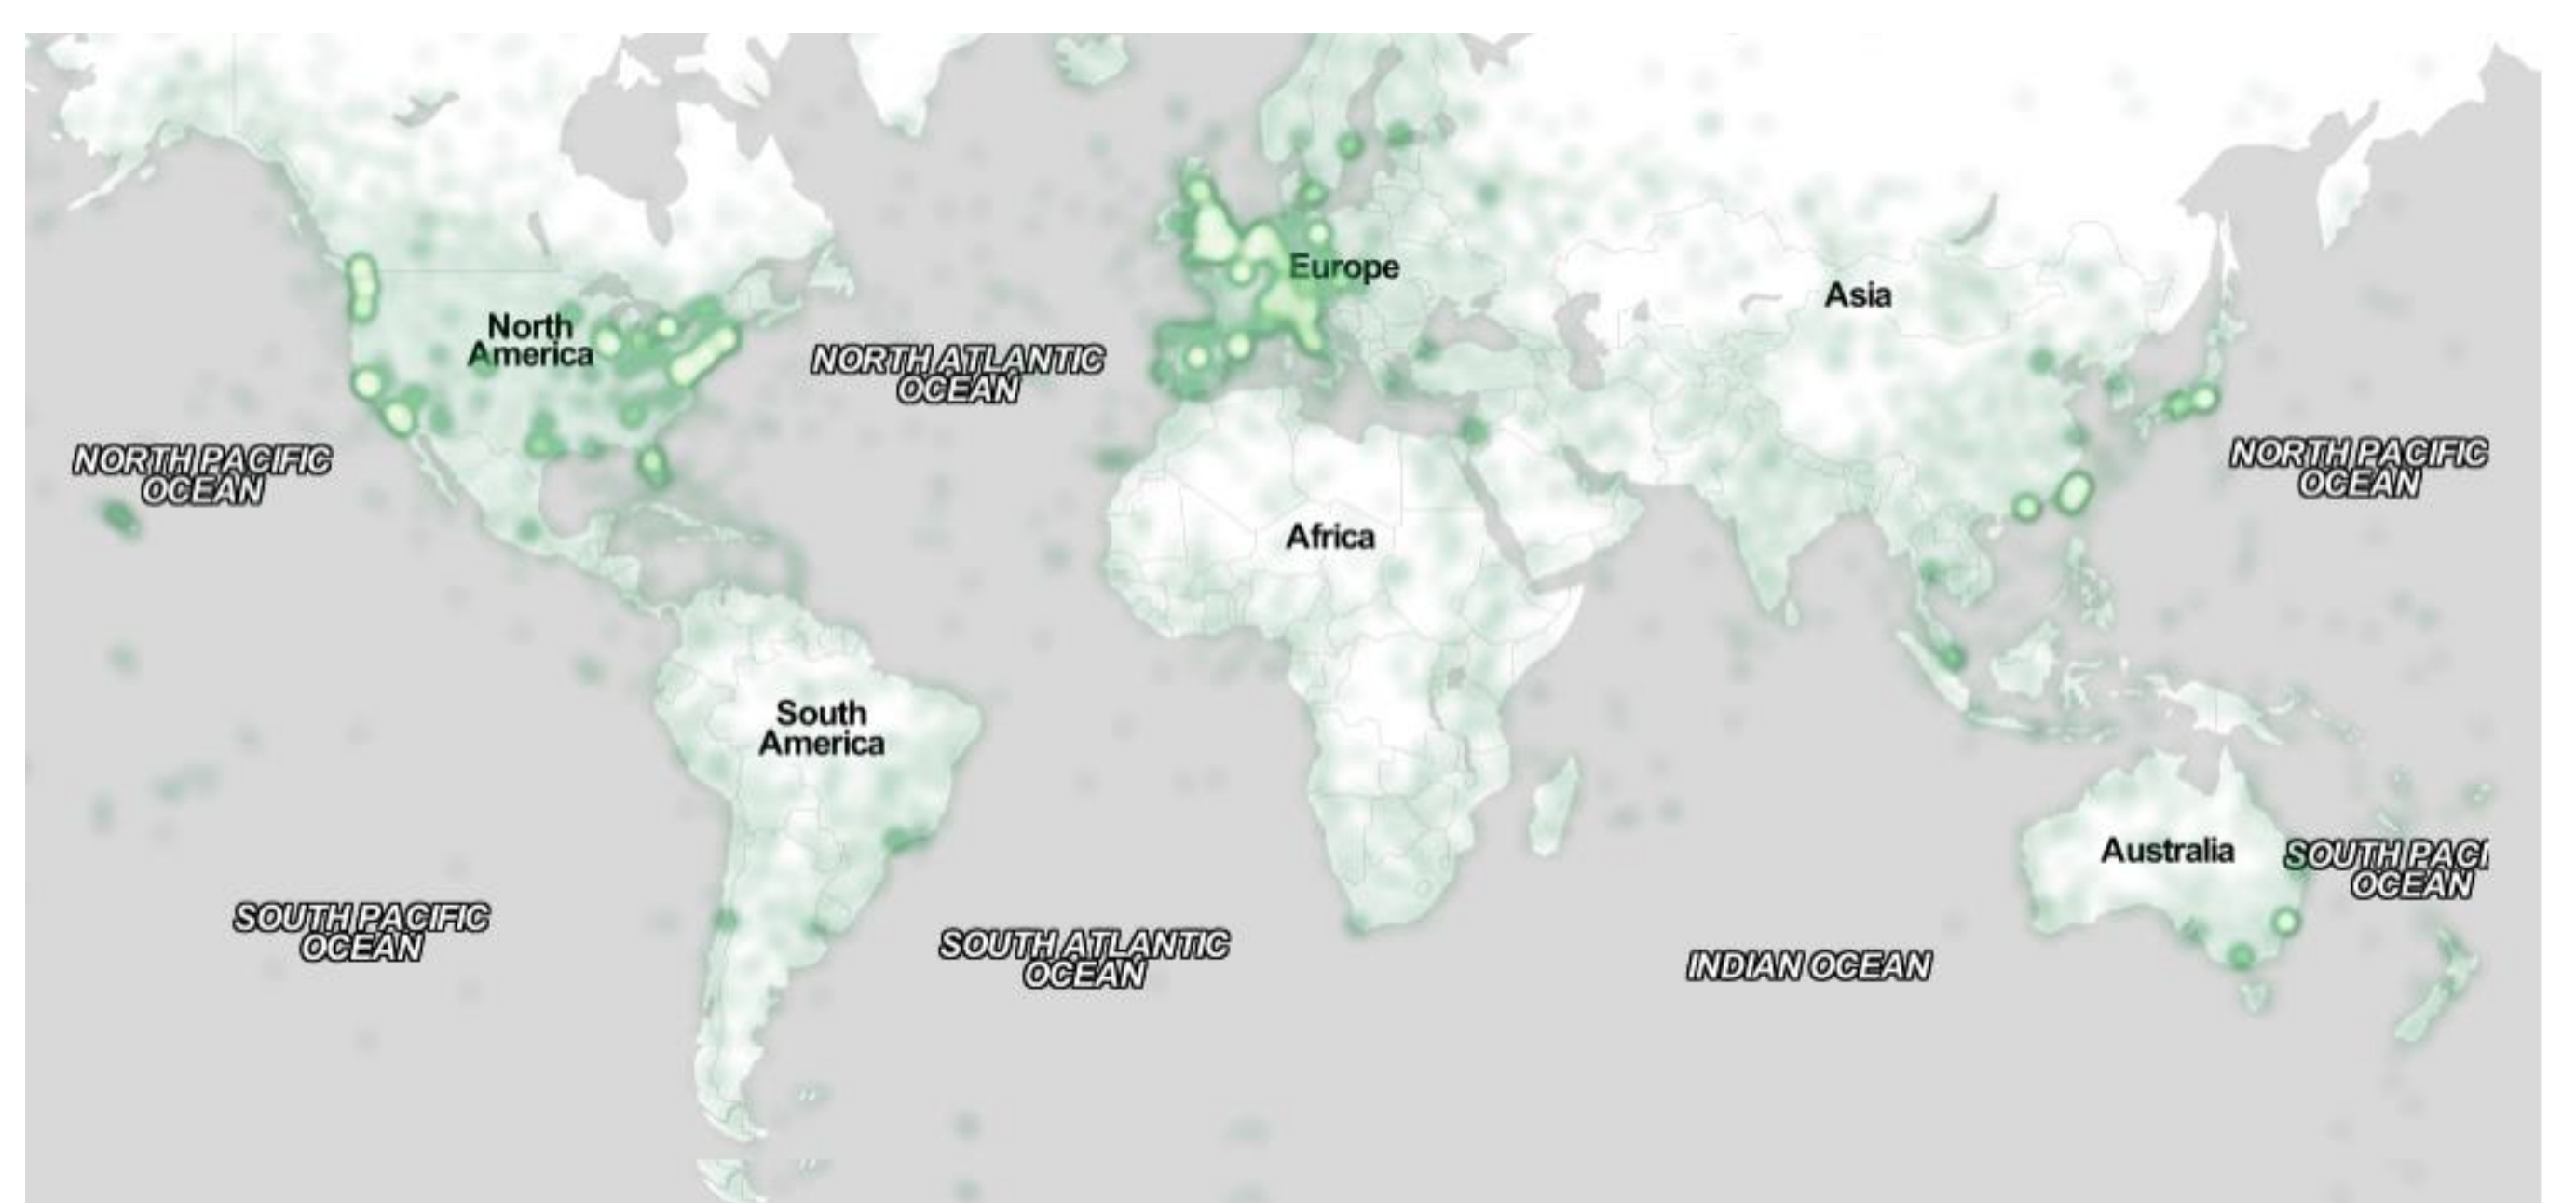

*Use Captions*

## Discussion

- Those tips are from the top of my head and subjective
- Maybe consider looking at previous AutomotiveUI posters or Search for “good poster design”
- The chosen images are not well placed

## Future Work

- Put some examples online
- Consider sending the raw source of your previous Automotive-UI posters for reference
- Maybe even just a pdf/jpg/png
